

Mafqood - by Robusta

Background and Motivation

To help the community to report missing/found individuals. There is an urgent need to organize the process of reporting missing, found or even kidnapped suspects in a single platform. This is currently being done through social networks, but it is lacking organization, and is done in a very scattered manner.

Brief Description

The application will be serving 3 purposes:

- To report a found individual/kidnapped suspect.
- To report a missing individual.
- To search for a missing individual.

Expected functionality

- Report a found individual/kidnapped suspect by filling a form containing info like:
 - Approximate age
 - Gender
 - Photo
 - Area/location
 - Description
 - Special signs
 - How to reach you (phone number)
- Report a missing individual by filling a form containing info like:
 - Name
 - Date of birth
 - Gender
 - Photos
 - Description
 - Last time seen
 - Clothes
 - Location when lost
 - Information about the reporter:
 - Login with facebook
 - Name
 - Phone number(s)
 - Address
 - Email
- Search for a missing/found individuals with ability to filter.

- Administration for moderating & merging duplicate posts.
- Super mobile friendly

Beyond the Course
